## 1. IN-BUILT BATTERY

The 2WD Remote Control ATV comes with a rechargeable 1200 mAH battery. Don't attempt to modify, remove or replace the battery as it may damage it and cause overheating and injury. Do not cut, tear, puncture, compress or deform the ATV by disassembling it.

Follow the below instructions for charging its battery:

1. Turn the 2WD ATV upside down to check the charging port.
2. Plug the USB charging cable provided in the box into the (5V-2A) DC input charging slot at the bottom of the 2WD ATV.
3. Red LED will glow up while charging.
4. Green LED will glow up when the 2WD ATV vehicle is fully charged.
5. Remove the adapter when the Green LED glows up.

**1200 mAh Rechargeable  
Li-Ion Battery (Included)**

## 2. REMOTE CONTROL

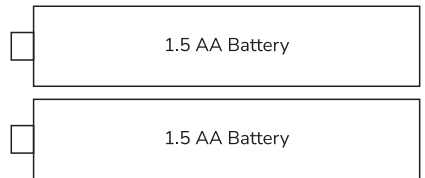

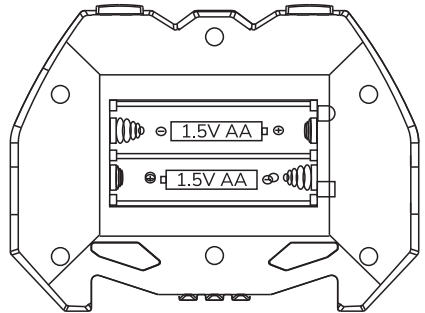

### BATTERY

### INSTALLATION

For the 2WD Remote Control ATV, you need to install 2 batteries of 1.5V "AA" type.

Follow the below instructions for installation:

1. Invert the remote control console and unscrew the battery compartment.
2. Install new batteries (+/-) inside the compartment carefully.
3. Place the battery compartment lid securely and your remote control console is ready to use.

**Use 2 x 1.5v "AA" Battery**

### 3. PLAYING

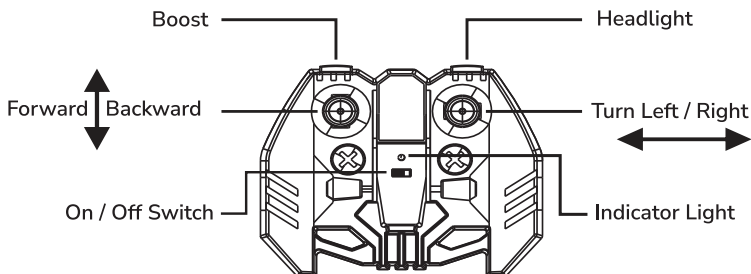

#### INSTRUCTIONS

1. Turn on the 2WD ATV switch given at its bottom and place it on a flat surface.
2. Place the battery compartment lid securely and your remote control console is ready to use.
3. Switch on the power button of the remote control and a red indicator light will glow up on top.
4. Hold the remote control near your 2WD ATV to pair.
5. Use the remote control console to drive the ATV.
6. For directional control, use the left round button on the controller for moving the vehicle forward and backwards. Use the right round button for moving left or right.
7. For an extra burst of speed, you can use the button on the left side situated at the front of the controller to activate the Boost function.
8. The button on the right side situated at the front of the controller can be used for switching on the headlights of the 2WD ATV.

### 4. SAFETY

#### PRECAUTIONS

The 2WD Remote Control ATV should be used by children aged 5 years or above. While using it for the first time, this ATV should be safely set-up under adult supervision. Do not try to modify any part of the 2WD ATV, which may negate your authority to use it. Rechargeable batteries of this ATV should be charged under adult supervision only. While charging the 2WD ATV, do not touch the electric outlet and the charging port with bare/wet hands to avoid electric shock like other electric products. Do not use damaged electric outlets for charging batteries. Do not attempt to charge non-rechargeable / replaceable batteries of the controller. Parental guidance is recommended when installing or replacing the batteries in the remote control console. Adults should examine the USB cable, plug, enclosure or other parts of the ATV regularly. Strictly adhere to this instruction manual while operating the ATV.

## CARE AND MAINTENANCE

Always remove batteries from the controller when they have drained out completely or are not in use for a longer period of time. Keep it away from direct sunlight, high humidity, high temperature or excess heat. Ensure that the tires are clean for optimized stunt performance. Gently wipe the tires of the ATV with a damp cloth whenever they become dirty. Do not immerse the 2WD ATV or any part of it in water to clean it. This can damage its electronic components. Before using the 2WD ATV, please ensure that it is not damaged and safe to use.

## DISPOSAL INFORMATION

Never dispose of the 2WD ATV and/or its battery along with the household waste. If/When you decide to dispose of this ATV and/or its battery, discard it in e-waste container that are in accordance with the local environmental laws, guidelines and battery recycling procedures.
